

DISCO *bulletin*

News

We have a real good inclusion rate at the moment and we would like to **thank you all for your hard work this year** in the DISCO study.

One year ago we had 260 patients and now we have 460!

Unfortunately we have been forced to close some sites in Sweden, since they were not recruiting any patients.

But we welcome Aalborg and Odense from Denmark to the study. Hopefully the recruitment rate will continue to increase with more sites on board.

We would like to wish you

Happy Holidays and a Happy New Year!

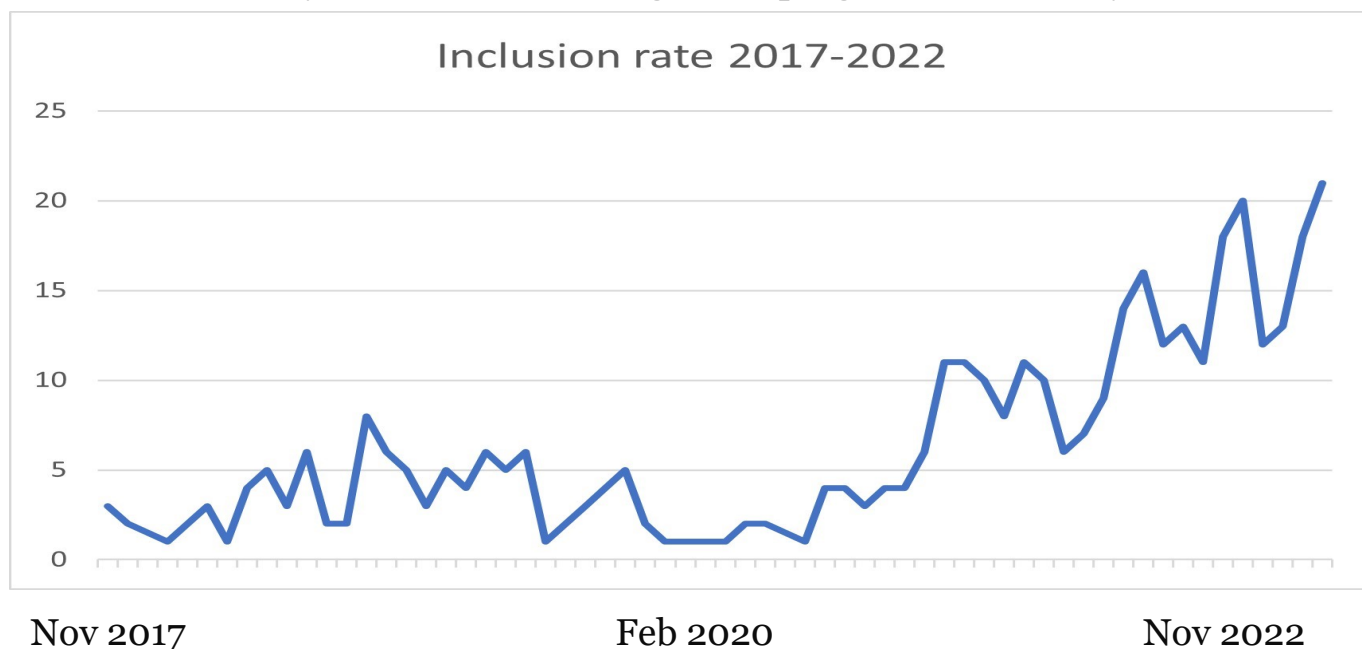

Included
22 dec 2022:

460
