

DISCO *bulletin*

News

We have a real good inclusion rate at the moment and we would like to **thank you all for your hard work this year** in the DISCO study.

One year ago we had 460 patients and now we have 675!

A kind reminder that its **always easier** to collect and enter data **shortly after inclusion**.

Working in Open Clinica on regular basis, makes it easier to understand the database.

Good news:

We received extended trust from our main sponsors VR-Swedish Research Council and the Swedish HeartLung Foundation.

Included

19 dec 2023:

675
